

WorldAddress™

Country

Coverage –

international grids

WorldAddress covers most of the world with address data from over 250 countries included. The level of data available varies from country to country as not all countries have data to full property (or delivery point) level.

[your address and data quality partners](#)

The Below table describes the level of address and latitude/longitude data for each country.

Country/territory name	ISO3	Verification Level	Grid Level
Afghanistan	AFG	Locality	Locality
Albania	ALB	Property	Property
